GUITAR SETUP

6-String Electric Guitar

When Does Your Guitar Need This?

A guitar setup should be done on every “new guitar” and older guitars **approximately 1-2 times per year**. If you notice that the sound of your guitar sounds odd it probably needs technical adjustments to be made,

What Does This Do for My Guitar?

A professional guitar setup effectively balances the numerous settings between the parts of your guitar. This **enables proper tone and resolves playability problems** such as incorrect intonation, fret buzz, fret out, rough fret ends, incorrect string height (action) and pickup heights. Inspecting and cleaning keeps your guitar looking great and can uncover hidden or potential problems.

What Things Does This Include?

There is a specific process which requires many guitar technician tools to complete a proper guitar setup. Inspection of certain parts may, or may not, mandate adjustments to the specific part. **Our setup includes:**

- 🎸 Check truss rod (neck relief), nut & saddles
- 🎸 Check string action and pickup heights
- 🎸 Install new guitar strings / tune strings
- 🎸 Digitally calibrate intonation
- 🎸 Polish frets & condition fretboard
- 🎸 Clean and polish body, neck and head

What Is the Price for This Service?

Our standard Guitar Setup is only \$55 + the cost of your choice of guitar strings. **If you choose string sizes that require re-sizing nut string slot (filing slots) add \$30.*

How Do We Get Started?

Simply get in touch with us to arrange a time to meet. We offer door-to-door pickup and delivery service for a very nominal cost, or we have a drop-off & pick-up office on Cherokee Street in Kennesaw, Georgia.

For a fast response text us 24/7 at 770-654-3223 – Thanks!
